Subject index

A

Abscess formation induced in rabbits with bacteria-filled subcutaneous implants that simulate infected dental root canal (Moorer, Thoden van Velzen, and Wesselink), 642
Adenoma, pleomorphic, computerized tomography of combined carcinomas arising in (Farman, George, and Clear), 96
  "pedicle flap" for complete excision of benign salivary gland tumors of palate (Sacks et al.), 572
Alveolar ridge deficiency, hydroxylapatite reconstruction of, with open mucosal flap technique (Barsan and Kent), 113
Alveolitis, localized, and infection, effect of antimicrobial mouth rinses on incidence of, following mandibular third molar oral surgery (Sweet and Macynski), 24
American Academy of Oral Medicine, 322, 434 (Announcements)
American Academy of Oral Pathology, 322, 434 (Announcements)
American Board of Oral and Maxillofacial Radiology, 112 (Announcement)
American Board of Oral Pathology, 322, 434, 550, 664 (Announcements)
Analgesia, local, outpatient surgery under, midazolam and diazepam compared as sedatives for (Barcley, Hunter, and McMillan), 349
Anemia, megaloblastic, with oral lesions: consequence of gastric bypass surgery (Drummond, White, and Damm), 149
Anesthesia, regional, of pulp of acutely inflamed mandibular molar, clinical problem of (Wallace et al.), 517
Anesthetic, local, solutions, drug interactions and vasoconstrictors used in (Yagiela, Duffin, and Hunt), 565
Angiofibroma, juvenile nasopharyngeal: unusual presentation in oral cavity (Kabot et al.), 453
Announcements, 112, 228, 322, 434, 550, 664
Antidiuretic hormone, syndrome of inappropriate secretion of, in maxillofacial trauma patient (Lieblich et al.), 460
Antigens, carcinoembryonic, characterization of cells in salivary gland lesions by immunohistochemical identification of (Tsukitani et al.), 595
  hepatitis B surface, localization of, in human parotid gland (Shikata et al.), 58
  HLA-A, B, C, DR, MT, and MB, in recurrent aphthous stomatitis (Gallina et al.), 364
  indigenous oral mucosal, and selected laboratory-maintained bacteria in recurrent aphthous ulceration, serum antibody responses to (Lindemann, Riviere, and Sapp), 585
Antimicrobial mouth rinses, effect of, on incidence of localized alveolitis and infection following mandibular third molar oral surgery (Sweet and Macynski), 24
Aphthous stomatitis, recurrent, HLA-A, B, C, DR, MT, and MB antigens in (Gallina et al.), 364
  ulceration, possible role of apoptotic cells of oral epithelium in pathogenesis of (Honma, Saito, and Fujioka), 379
  recurrent, serum antibody responses to indigenous oral mucosal antigens and selected laboratory-maintained bacteria in (Lindemann, Riviere, and Sapp), 585
Apicoectomy with total loss of buccal bone plate, follow-up study of (Skiglund and Persson), 78
Arthroplasty, temporomandibular joint, silicone-induced foreign body reaction and lymphadenopathy after (Dolwick and Aufdemorte), 449
Aspergillosis, orofacial, in acute leukemia (Dreizen et al.), 499

B

Bacteria, endopathic; abscess formation induced in rabbits with bacteria-filled subcutaneous implants that simulate infected dental root canal (Moorer, Thoden van Velzen, and Wesselink), 642
Bacterial endocarditis, new recommendation for prevention of, 358 (Editorial)
Behçet's syndrome; possible role of apoptotic cells of oral epithelium in pathogenesis of aphthous ulceration (Honma, Saito, and Fujioka), 379
Blood coagulation, disseminated intravascular (Roseman), 551
  loss following dental extractions in anticoagulated rabbits: Effects of tranexamic acid and socket packing (Vinckier and Vermylen), 2
Bone cyst, traumatic (Freedman and Beigleman), 616
  fibrous dysplasia of, and concomitant dysplastic changes in dentin (Wannfors et al.), 394
  hyoid, fracture of, 663 (Roentgeno-oddities)
  lesions, experimentally produced (van der Stelt), 306
  plate, buccal, total loss of, follow-up study of apicoectomized teeth with (Skoglund and Persson), 78
Brandywine isolate hereditary opalescent dentin, unusual presentation of opalescent dentin and, in Ashkenazic Jewish family (Heimler et al.), 608
Burkitt's lymphoma; oral presentations in non-Hodgkin's lymphoma (Eisenbud et al.), 44
Butorphanol and nalbuphine (Pallasch and Gill), 15

C

Calcium hydroxide material for capping exposures, pulpal response to (Pitt Ford), 194
Canadian Academy of Endodontics, 228 (Announcement)
Canadian Dental Association, 228 (Announcement)
Canals, nutrient, incidence of, in hypertensive patients (Patni, Merchant, and Dhooria), 206
Carcinoembryonic antigens, characterization of cells in salivary gland lesions by immunohistochemical identification of (Tsukitani et al.), 595
Carcinogens; experimental tongue carcinoma of rats induced by oral administration of 4-nitroquinoline 1-oxide (4NQO) in drinking water (Ohne et al.), 600
Carcinoma, adenoid cystic, of upper lip (Pizer and Dubois), 70
  combined, arising in pleomorphic adenoma, computerized tomography of (Farman, George, and Clear), 96
  epithelial-myoepithelial (Palmer), 511
    of intercalated duct origin, follow-up report on (Pogrel), 173
    salivary, of intercalated ducts (Luna et al), 482
  experimental, of tongue, induced by oral administration of 4-nitroquinoline 1-oxide (4NQO) in drinking water (Ohne et al.), 600
  squamous cell, 174 (Letter to editor)
    focal acantholytic dyskeratosis and epidermolytic hyperkeratosis of oral mucosa adjacent to (Brodsky), 388
  verrucous: possible viral pathogenesis (Eisenberg, Rosenberg, and Ktutchkoff), 52

January, pp. 1-112; February, pp. 113-228; March, pp. 229-322; April, pp. 323-434; May, pp. 435-550; June, pp. 551-678.

Caries, incipient; diagnostic accuracy of detection of proximal enamel lesions in nonscreen radiographic performance (Okano, Huang, and Nakamura), 543
Cements; pulpal response to calcium hydroxide material for capping exposures (Pitt Ford), 194
Cementum and enamel defects, dentinogenesis imperfecta type III with (Clergeau-Guerithault and Jasmin), 505
Chewing gum, nicotine-containing, effects of, on oral soft and hard tissues (Christen et al.), 37
Chondrosarcoma, mesenchymal, delayed mandibular reconstruction following removal of (Osbon et al.), 557
  metastatic to oral cavity (Sherr, Fountain, and Piro), 622
Conference on Clinical and Research Issues in Swallowing and Swallowing Disorders, 112 (Announcement)
Cowden's syndrome, oral manifestations in (Swart, Lekkas, and Allard), 264
Cryotherapy in paroxysmal trigeminal neuralgia, 463 (Letters to editor)
Cyst, apical periodontal, melanoma with metastasis to (Welch, Hirsch, and Davis), 189
  bone, traumatic (Freedman and Beigleman), 616
  nasolabial, huge growth potential of (Cohen and Hertzanu), 441
  sublingual dermoid (Howell), 578
Cystic fibrosis, *Pseudomonas aeruginosa* in oral cavity and sputum of patients with (Komiyama et al.), 590
Cytotoxicity testing of dentin bonding system (Dumsha and Sydiskis), 637

D

Dental extractions, blood loss following, in anticoagulated rabbits: Effects of tranexamic acid and socket packing (Vinckier and Vermylen), 2
  in hemophilia (Vinckier and Vermylen), 6
  pain, acute, differential diagnostic approach to symptomatology of (Klausen, Helbo, and Dabelsteen), 297
  pulp chamber, narrowing of, in patients with renal diseases (Näsström et al.), 242
  tissue of patient with periodontal disease, histologic evaluation of (Torabinejad and Kiger), 198
  radiography, intraoral, modification designed to improve instruction in (Choksi), 653
  radiology, 95, 206, 302, 420, 530, 647
  treatment, relative value of screening tests of hemostasis prior to (Redding and Olive), 34
Dentin bonding system, cytotoxicity testing of (Dunsha and Sydiskis), 637
  fibrous dysplasia of bone and concomitant dysplastic changes in (Wannfors et al.), 394
  opalescent, and Brandywine isolate hereditary opalescent dentin in Ashkenazic Jewish family, unusual presentation of (Heimler et al.), 608
Dentinogenesis imperfecta type III with enamel and cementum defects (Clergeau-Guerithault and Jasmin), 505
  unusual presentation of opalescent dentin and Brandywine isolate hereditary opalescent dentin in Ashkenazic Jewish family (Heimler et al.), 608
Dentistry, microfocus roentgenographic magnification in (Parmley, Brodeur, and Ferguson), 530
Dentition, permanent, gemination and twinning in (Grover and Lorton), 313
Dermal-fat graft, facial defect augmentation with (Kempt and Seyfer), 340
Dermoid cyst, sublingual (Howell), 578
Diagnosis of odontogenic keratocyst, computed tomography in (MacKenzie), 302
Diagnostic approach, differential, to symptomatology of acute dental pain (Klausen, Helbo, and Dabelsteen), 297
Diazepam and midazolam compared as sedatives for outpatient surgery under local analgesia (Barclay, Hunter, and McMillan), 349
Dietary supplements, vitamin E, effects of, on exposed dental pulp in rats (Niamonitos, Shklar, and Krakow), 627
Disk displacement; internal derangement of temporomandibular joint (Westesson, Bronstein, and Liedberg), 323
Diskectomy of temporomandibular joint: double-contrast arthrotomographic follow-up study (Westesson and Eriksson), 435
Disseminated intravascular coagulation (Roseman), 551
DMBA, acute effect of application on mitotic activity of hamster buccal pouch epithelium Aly Hassan et al.), 491
Doppler ultrasound: Valuable diagnostic aid in patient with facial hemangioma (Oates, Williams, and Ward-Booth), 458
Drug interactions and vasoconstrictors used in local anesthetic solutions (Yagiela, Duffin, and Hunt), 565
Dyskeratosis, focal acantholytic, and epidermolytic hyperkeratosis of oral mucosa adjacent to squamous cell carcinoma (Brodsky), 388
Dysplasia, fibrous, of bone and concomitant dysplastic changes in dentin (Wannfors et al.), 394

E

Eagle's syndrome, diagnosis of (Sivers and Johnson), 575
Editorial: New recommendation for prevention of bacterial endocarditis, 358
Electrosurgery and blade-loop knives, comparison of healing and pain following excision of inflammatory papillary hyperplasia with, in human patients (Rathofer, Gardner, and Vermilyea), 130
Enamel and cementum defects, dentinogenesis imperfecta type III with (Clergeau-Guerithault and Jasmin), 505
  lesions, proximal, detection of, in nonscreen radiographic performance, diagnostic accuracy of (Okano, Huang, and Nakamura), 543
Endocarditis, bacterial, new recommendation for prevention of, 358 (Editorial)
Endodontic access, straight-line, to anterior teeth (LaTurno and Zillich), 418
  ;and operative procedures, effect of radiation on response of dental pulp to (Fawzi, Shklar, and Krakow), 405
  treatment; two dental x-ray films compared for rater preference using endodontic views (Kleier, Benner, and Averbach), 201
Endodontics, 77, 194, 285, 405, 517, 627
Epithelial-myoepithelial carcinoma (Palmer), 511
  salivary, of intercalated ducts (Luna et al.), 482
Epithelium, hamster buccal pouch, acute effect of DMBA application on mitotic activity of (Hassan et al.), 491
  oral, possible role of apoptotic cells of, in pathogenesis of aphthous ulceration (Honma, Saito, and Fujioka), 379
  squamous, neoplastic and tumorlike lesions of, distribution of keratin proteins in (Mori et al.), 63
European Association for Maxillo-Facial Surgery, eighth congress, 664 (Announcement)
Extractions, dental, blood loss following, in anticoagulated rabbits: Effects of tranexamic acid and socket packing (Vincker and Vermylen), 2
  in hemophilia (Vinckier and Vermylen), 6

F

Facial defect augmentation with dermal-fat graft (Kempf and Seyfer), 340
  gangrene, adult, interesting case of (from Papua, New Guinea) (Malden), 279
  hemangioma, Doppler ultrasound valuable diagnostic aid in patient with (Oates, Williams, and Ward-Booth), 458
  pain, atypical (Mock, Frydman, and Gordon), 472
  swelling, postsurgical; introduction to ultrasonography in oral surgery (Wilson and Crocker), 236

Fibromas, cementifying, of jaws in two siblings, familial hyperparathyroidism associated with (Warnakulasuriya, Markwell, and Williams), 269
central ossifying, radiographic characteristics of (Eversole, Merrell, and Strub), 522
chondromyxoid, of maxilla (Damm et al.), 176
Fibrosis, cystic, *Pseudomonas aeruginosa* in oral cavity and sputum of patients with (Komiyama et al.), 590
oral submucous, in 4-year-old girl (Hayes), 475
Fibrous defect in mandible, 320 (Roentgeno-oddities)
dysplasia of bone and concomitant dysplastic changes in dentin (Wannfors et al.), 394
Film developers, Soludent and GBX, densitometric evaluation of (Patel), 107
holding device; modification designed to improve instruction in intraoral dental radiography (Choksi), 653
two dental x-ray, compared for rater preference using endodontic views (Kleier, Benner, and Averbach), 201
Flap, open mucosal, technique, hydroxylapatite reconstruction of alveolar ridge deficiency with (Barsan and Kent), 113
pedicle, for complete excision of benign salivary gland tumors of palate (Sacks et al.), 572
Focal acantholytic dyskeratosis and epidermolytic hyperkeratosis of oral mucosa adjacent to squamous cell carcinoma (Brodsky), 388
Foreign body in tongue, 549 (Roentgeno-oddities)
in tooth, 431 (Roentgeno-oddities)
reaction, silicone-induced, and lymphadenopathy after temporomandibular joint arthroplasty (Dolwick and Aufdemorte), 449
Forestier's disease, surgical treatment of, radiographic, clinical, and histopathologic evaluation (Barsamian et al.), 136
Fractures, mandibular: Overtreated: (Haidar), 142
ten years of (Ellis, Moos, and El-Attar), 120
of hyoid bone, 663 (Roentgeno-oddities)
vertical, 110 (Roentgeno-oddities)

G

Gangrene, adult facial, interesting case of (from Papua, New Guinea) (Malden), 279
Gastric bypass surgery, megaloblastic anemia with oral lesions as consequence of (Drummond, White, and Damm), 149
Gemination and twinning in permanent dentition (Grover and Lorton), 313
of mandibular third molar, 432 (Roentgeno-oddities)
Genioplasty, functional: Correction of mandibular vertical excess (Precious and Delaire), 229
Ghost cells in complex odontoma (Kerebel and Kerebel), 371
Gingivitis, focal hyperplastic, immunohistochemical identification of alpha-1-antitrypsin, alpha-1-antichymotrypsin, and lysozyme in (Kivens, Sauk, and Vickers), 167
ulcerative stomatitis, and skin lesions (Scully), 261
Graft, dermal-fat, facial defect augmentation with (Kempf and Seyfer), 340
Growth potential of nasolabial cyst, huge (Cohen and Hertzanu), 441
Gutta-percha, thermomechanical properties of (Schilder, Goodman, and Aldrich), 285

H

Hamartoma, multiple; oral manifestations in Cowden's syndrome (Swart, Lekkas, and Allard), 264
Healing and pain following excision of inflammatory papillary hyperplasia with electrosurgery and blade-loop knives in human patients (Rathofer, Gardner, and Vermilyea), 130
Hemangioma, facial, Doppler ultrasound valuable diagnostic aid in patient with (Oates, Williams, and Ward-Booth), 458
Hemophilia, dental extractions in (Vinckier and Vermylen), 6
Hemostasis, screening tests of, prior to dental treatment, relative value of (Redding and Olive), 34
Hepatitis B surface antigen, localization of, in human parotid gland (Shikata et al.), 58
Herniation, sublingual gland, through mylohyoid muscle (Nathan and Luchansky), 21
Herpes simplex virus and tobacco, combined effect of, on histopathologic changes in lip of mice (Park et al.), 154
infection, chronic oral, in immunocompromised patients (Cohen and Greenberg), 465
experimental development of, in hamster buccal pouch (Park, Herbosa, and Shklar), 159
Herpetic gingivostomatitis, primary; ulcerative stomatitis, gingivitis, and skin lesions (Scully), 261
Hormone, antidiuretic, syndrome of inappropriate secretion of, in maxillofacial trauma patient (Lieblich et al.), 460
Hydroxylapatite reconstruction of alveolar ridge deficiency with open mucosal flap technique (Barsan and Kent), 113
Hyoid bone, fracture of, 663 (Roentgeno-oddities)
Hyperkeratosis, epidermolytic, focal acantholytic dyskeratosis and, of oral mucosa adjacent to squamous cell carcinoma (Brodsky), 388
Hyperostosis, diffuse idiopathic skeletal (Forestier's disease), surgical treatment of (Barsamian et al.), 136
Hyperparathyroidism, familial, associated with cementifying fibromas of jaws in two siblings (Warnakulasuriya, Markwell, and Williams), 269
Hyperplasia, inflammatory papillary, comparison of healing and pain following excision of, with electrosurgery and blade-loop knives in human patients (Rathofer, Gardner, and Vermilyea), 130
Hyperplastic gingivitis, focal, immunohistochemical identification of alpha-1-antitrypsin, alpha-1-antichymotrypsin, and lysozyme in (Kivens, Sauk, and Vickers), 167
Hypertension, incidence of nutrient canals in patients with (Patni, Merchant, and Dhooria), 206

I

Ichthyosis, patient with (Martin and Nusbacher), 581
Image reconstructions, three-dimensional, identification of anteriorly displaced meniscus in vitro by means of (Pettigrew et al.), 535
Impactions; incidence of unerupted permanent teeth and related clinical cases (Grover and Lorton), 420
Implants, bacteria-filled subcutaneous, that simulate infected dental root canal, abscess formation induced in rabbits with (Moorer, Thoden van Velzen, and Wesselink), 642
Incisions, mucosal, comparison of isobutyl cyanoacrylate and sutures in closing (Javelet, Torabinejad, and Danforth), 91
Incisor, two-rooted maxillary lateral, 321 (Roentgeno-oddities)
Infection, oral herpes simplex virus, chronic, in immunocompromised patients (Cohen and Greenberg), 465
experimental development of, in hamster buccal pouch (Park, Herbosa, and Shklar), 159
localized alveolitis and, effect of antimicrobial mount rinses on incidence of, following mandibular third molar oral surgery (Sweet and Macynski), 24
mycotic, in necrotic pulp tissue (Levine, Friedman, and Nevins), 414
odontogenic, septic shock due to (Quinn and Guernsey), 336
orofacial odontogenic, evaluation of treatment provided patients hospitalized with (Young et al.), 28
International Association for Dental Research Oral and Maxillofacial Surgery Group Award, 112 (Announcement)
International Association of Oral Pathologists; biennial oral pathology congress, 550 (Announcement)
International Congress on Tissue Integration, 322 (Announcement)

Isobutyl cyanoacrylate: Clinical and histologic comparison with sutures in closing mucosal incisions in monkeys (Javelet, Torabinejad, and Danforth), 91
Isosorbide dinitrate, mucosal absorption of, at different intraoral sites (Pimlott and Addy), 145

J

Jaw, cementifying fibromas of, in two siblings, familial hyperparathyroidism associated with, (Warnakulasuriya, Markwell, and Williams), 269
muscle function, recovery of, following injection of myotoxic agent (lidocaine-epinephrine) (Hinton, Dechow, and Carlson), 247

K

Keratin proteins, distribution of, in neoplastic and tumorlike lesions of squamous epithelium (Mori et al.), 63
Keratocyst, odontogenic, computed tomography in diagnosis of (MacKenzie), 302
Knives, blade-loop, and electrosurgery, comparison of healing and pain following excision of inflammatory papillary hyperplasia with, in human patients (Rathofer, Gardner, and Vermilyea), 130

L

Lesions, bone, experimentally produced (van der Stelt), 306
Letters to editor, 174, 356, 463, 516
Leukemia, acute, orofacial aspergillosis in (Dreizen et al.), 499
Leukocytes, polymorphonuclear, suggested role for, in perpetuation of periapical disease (Callis and Santini), 88
Lidocaine-epinephrine; recovery of jaw muscle function following injection of myotoxic agent (Hinton, Dechow, and Carlson), 247
Lingual thyroid, management of large, in orthognathic surgery patient (Gallo and Ellis), 344
Lip, combined effect of herpes simplex virus and tobacco on histopathologic changes in, of mice (Park et al.), 154
intraoral benign mesenchymoma (Couwenhoven et al.), 619
upper, adenoid cystic carcinoma of (Pizer and Dubois), 70
Lymphadenopathy, silicone-induced foreign body reaction and, after temporomandibular joint arthroplasty (Dolwick and Aufdemorte), 449
Lymphoma, non-Hodgkin's, oral presentations in (Eisenbud et al.), 44

M

Magnetic resonance imaging of temporomandibular joint meniscus (Katzberg et al.), 332
Magnification, microfocus roentgenographic, in dentistry (Parmley, Brodeur, and Ferguson), 530
Mandible, atypical central neurilemmoma of (Murphy and Giunta), 275
defect of, 110 (Roentgeno-oddities)
fibrous defect in, 320 (Roentgeno-oddities.)
Mandibular augmentation; hydroxylapatite reconstruction of alveolar ridge deficiency with open mucosal flap technique (Barsan and Kent), 113
fractures: Overtreated? (Haidar), 142
ten years of (Ellis, Moos, and El-Attar), 120
reconstruction, delayed, following removal of mesenchymal chondrosarcoma (Osbon et al.), 557
vertical excess, correction of: Functional genioplasty (Precious and Delaire), 229
Maxilla, chondromyxoid fibroma of (Damm et al.), 176
Maxillofacial trauma patient, syndrome of inappropriate secretion of antidiuretic hormone in (Lieblich et al.), 460
Meclofenamate sodium, control of pain with, following removal of impacted molar (Rowe, Aseltine, and Turner), 446
Melanoma with metastasis to apical periodontal cyst (Welch, Hirsch, and Davis), 189
Meniscus, anteriorly displaced, identification of, in vitro by means of three-dimensional image reconstructions (Pettigrew et al.), 535
displacement; internal drangement of temporomandibular joint (Westesson, Bronstein, and Liedberg), 323
temporomandibular joint, magnetic resonance imaging of (Katzberg et al.), 332
Mesenchymoma, intraoral benign (Couwenhoven et al.), 619
Mesiodens, 13,000-year-old, in vault of palate; tooth eruption and migration theories (Sutton), 252
Microfocus roentgenographic magnification in dentistry (Parmley, Brodeur, and Ferguson), 530
Midazolam and diazepam compared as sedatives for outpatient surgery under local analgesia (Barclay, Hunter, and McMillan), 349
Mitotic activity of hamster buccal pouch epithelium, acute effect of DMBA application on (Hassan et al), 491
Molar, acutely inflamed mandibular, clinical problem of regionally anesthetizing pulp of (Wallace et al.), 517
impacted, control of pain with meclofenamate sodium following removal of (Rowe, Aseltine, and Turner), 446
mandibular third, gemination of, 432 (Roentgeno-oddities)
"pregnant," 227 (Roentgeno-oddities)
pyramidal, 433 (Roentgeno-oddities)
Mouth rinses, antimicrobial, effect of, on incidence of localized alveolitis and infection following mandibular third molar oral surgery (Sweet and Macynski), 24
Mucosal absorption of isosorbide dinitrate at different intraoral sites (Pimlott and Addy), 145
Muscle, jaw, recovery of function following injection of myotoxic agent (lidocaine-epinephrine) (Hinton, Dechow, and Carlson), 247
Mycotic infection in necrotic pulp tissue (Levine, Friedman, and Nevins), 414
Mylohyoid muscle, sublingual gland herniation through (Nathan and Luchansky), 21
Myoclonus, bilateral palatal (Hanson, Ficara, and McQuade), 479
Myotoxic agent (lidocaine-epinephrine), recovery of jaw muscle function following injection of (Hinton, Dechow, and Carlson), 247

N

Nalbuphine and butorphanol (Pallasch and Gill), 15
Nasolabial cyst, huge growth potential of (Cohen and Hertzanu), 441
Nasopharyngeal angiofibroma, juvenile: Unusual presentation in oral cavity (Kabot et al.), 453
National Institutes of Health Consensus Development Conference on Anesthesia and Sedation in the Dental Office, 228 (Announcement)
Neuralgia, paroxysmal trigeminal, 463 (Letters to editor)
Neurilemmoma, atypical central, of mandible (Murphy and Giunta), 275
Nevus of Ota with associated palatal involvement (Page, Svirsky, and Kaugars), 282
Nicotine-containing chewing gum, effects of, on oral soft and hard tissues (Christen et al.), 37
Northwestern University-Chicago, 112 (Announcement)
Nuclear medical scan in diagnosis of temporomandibular joint disease, 356 (Letter to editor)
Nutrient canals, incidence of, in hypertensive patients (Patni, Merchant, and Dhooria), 206

O

Odontogenic infections, orofacial, evaluation of treatment provided patients hospitalized with (Young et al.), 28

Odontogenic—Cont'd
septic shock, presentation and complications of (Quinn and Guernsey), 336
Odontoma, complex, ghost cells in (Kerebel and Kerebel), 371
erupted, 225 (Roentgeno-oddities)
Opalescent dentin and Brandywine isolate hereditary opalescent dentin, unusual presentation of, in Ashkenazic Jewish family (Heimler et al.), 608
Oral cavity, chondrosarcoma metastatic to (Sherr, Fountain, and Piro), 622
radiation-induced lesion of: Thorium depositions detected by x-ray microanalysis (Terzakis et al.), 399
unusual presentation of juvenile nasopharyngeal angiofibroma in (Kabot et al.), 453
herpes simplex virus infection, chronic, in immunocompromised patients (Cohen and Greenberg), 465
inflammatory ulcerative diseases, clinical efficacy of prednisone in treatment of patients with (Silverman, Lozada-Nur, and Migliorati), 360
lesions, megaloblastic anemia with: consequence of gastric bypass surgery (Drummond, White, and Damm), 149
manifestations in Cowden's syndrome (Swart, Lekkas, and Allard), 264
of sarcoidosis (DeLuke and Sciubba), 184
medicine, 27, 145, 256, 358, 465, 581
mucosa, focal acantholytic dyskeratosis and epidermolytic hyperkeratosis of, adjacent to squamous cell carcinoma (Brodsky), 388
mucous membrane pemphigoid, modified topical steroid therapy for treatment of (Aufdemorte, De Villez, and Parel), 256
papillary lesions, detection of papovavirus antigen in, 516 (Letter to editor)
pathology, 43, 159, 264, 371, 482, 595
Congress, biennial, 550 (Announcement)
teaching specimens, epoxy resin and silicone impregnation technique for preservation of (Aufdemorte et al.), 74
soft and hard tissues, effects of nicotine-containing chewing gum on (Christen et al.), 37
submucous fibrosis in 4-year-old girl (Hayes), 475
surgery, 1, 113, 229, 323, 435, 551
ultrasonography in, introduction to (Wilson and Crocker), 236
Orofacial aspergillosis in acute leukemia (Dreizen et al.), 499
odontogenic infections, evaluation of treatment provided patients hospitalized with (Young et al.), 28
Orthognathic surgery patient, management of large lingual thyroid in (Gallo and Ellis), 344
speech production before and after (Ruscello, Tekieli, and Van Sickels), 10
Ossifying fibroma, central, radiographic characteristics (Eversole, Merrell, and Strub), 522
Osteotomy-ostectomy; correction of mandibular vertical excess (Precious and Delaire), 229

P

Pain, acute dental, differential diagnostic approach to symptomatology of (Klausen, Helbo, and Dabelsteen), 297
and healing following excision of inflammatory papillary hyperplasia with electrosurgery and blade-loop knives in human patients, comparison of (Rathofer, Gardner, and Vermilyea), 130
atypical facial (Mock, Frydman, and Gordon), 472
control of, with meclofenamate sodium following removal of impacted molar (Rowe, Aseltine, and Turner), 446
postendodontic; inadequate treatment (Wallace, Wilson, and Groom), 528
Palatal involvement, nevus of Ota with associated (Page, Svirsky, and Kaugars), 282
myoclonus, bilateral (Hanson, Ficara, and McQuade), 479
Palate, benign salivary gland tumors of, technique for complete excision of: "pedicle flap" (Sacks et al.), 572
13,000-year-old mesiodens in vault of; tooth eruption and migration theories (Sutton), 252
Papillary hyperplasia, inflammatory, comparison of healing and pain following excision of, with electrosurgery and blade-loop knives in human patients (Rathofer, Gardner, and Vermilyea), 130
Papovavirus antigen, detection of, in oral papillary lesions, 516 (Letter to editor)
Parotid gland, human, localization of hepatitis B surface antigen in (Shikata et al.), 58
Patients hospitalized with orofacial odontogenic infections, evaluation of treatment provided (Young et al.), 28
hypertensive, incidence of nutrient canals in (Patni, Merchant, and Dhooria), 206
immunocompromised, chronic oral herpes simplex virus infection in (Cohen and Greenberg), 465
Pedicle flap for complete excision of benign salivary gland tumors of palate (Sacks et al.), 572
Pemphigoid, oral mucous membrane, modified topical steroid therapy for treatment of (Aufdemorte, De Villez, and Parel), 256
Periapical disease, suggested role for polymorphonuclear leukocytes in perpetuation of (Callis and Santini), 88
Periodontal disease, histologic evaluation of dental pulp tissue of patient with (Torabinejad and Kiger), 198
Plastination; epoxy resin and silicone impregnation technique for preservation of oral pathology teaching specimens (Aufdemorte et al.), 74
Polymorphonuclear leukocytes, suggested role for, in perpetuation of periapical disease (Callis' and Santini), 88
Prednisone, clinical efficacy of, in treatment of patients with oral inflammatory ulcerative diseases (Silverman, Lozada-Nur, and Migliorati), 360
"Pregnant" molar, 227 (Roentgeno-oddities)
Premolar, three-rooted; inadequate treatment (Wallace, Wilson, and Groom), 528
Proteins, keratin, distribution of, in neoplastic and tumorlike lesions of squamous epithelium (Mori et al.), 63
Pseudomonas aeruginosa in oral cavity and sputum of patients with cystic fibrosis (Komiyama et al.), 590
Pulp capping agents; pulpal response to calcium hydroxide material for capping exposures (Pitt Ford), 194
chamber, narrowing of, in patients with renal diseases (Näström et al.), 242
dental, effect of radiation on response of, to operative and endodontic procedures (Fawzi, Shklar, and Krakow), 405
exposed, in rats, effects of vitamin E dietary supplements on (Niamonitos, Shklar, and Krakow), 627
of acutely inflamed mandibular molar, clinical problem of regionally anesthetizing (Wallace et al.), 517
response to calcium hydroxide material for capping exposures (Pitt Ford), 194
tissue, dental, of patient with periodontal disease, histologic evaluation of (Torabinejad and Kiger), 198
necrotic, mycotic infection in (Levine, Friedman, and Nevins), 414
Pyramidal molars, 433 (Roentgeno-oddities)

R

Radiation; absorbed doses from temporomandibular joint radiography (Brooks and Lanzetta), 647
effect of, on response of dental pulp to operative and endodontic procedures (Fawzi, Shklar, and Krakow), 405
induced lesion of oral cavity: Thorium depositions detected by x-ray microanalysis (Terzakis et al.), 399
Radiography, extraoral, with conventional dental x-ray machines, new positioning device for (Schiff and McDavid), 659

Radiography—Cont'd
intraoral dental, modification designed to improve instruction in (Choksi), 653
panoramic, using Orthopantomograph model OP 5, exposure distribution, absorbed doses, and energy imparted for (Nilsson, Rohlin, and Thapper), 212
temporomandibular joint, absorbed doses from (Brooks and Lanzetta), 647
Radiology; sensitometric evaluation of rare earth intensifying screen systems (Thunthy, Boozer, and Weinberg), 102
Renal diseases, narrowing of dental pulp chamber in patients with (Näsström et al.), 242
Retrograde techniques, sealing properties of different, comparison of (Szeremata-Browar, VanCura, and Zaki), 82
Rhinolith, factitious, 662 (Roentgeno-oddities)
Roentgenographic magnification, microfocus, in dentistry (Parmley, Brodeur, and Ferguson), 530
Roentgeno-oddities, 110, 225, 319, 431, 548, 662
Root canal, infected dental, abscess formation induced in rabbits with bacteria-filled subcutaneous implants that simulate (Moorer, Thoden van Velzen, and Wesselink), 642

S

Salivary epithelial-myoepithelial carcinomas of intercalated ducts (Luna et al.), 482
gland lesions, characterization of cells in, by immunohistochemical identification of carcinoembryonic antigens (Tsukitani et al.), 595
tumors, benign, of palate, technique for complete excision of: "pedicle flap" (Sacks et al.), 572
Sarcoidosis, oral manifestations of (DeLuke and Sciubba), 184
Scandinavian Association of Oral and Maxillofacial Surgeons, 228 (Announcement)
Screening tests of hemostasis prior to dental treatment, relative value of (Redding and Olive), 34
Screens, rare earth intensifying, sensitometric evaluation of (Thunthy, Boozer, and Weinberg), 102
Sealing properties of different retrograde techniques, comparison of (Szeremeta-Browar, VanCura, and Zaki), 82
Sedatives, midazolam and diazepam compared as, for outpatient surgery under local analgesia (Barclay, Hunter, and McMillan), 349
Septic shock, odontogenic, presentation and complications of (Quinn and Guernsey), 336
Serum antibody responses to indigenous oral mucosal antigens and selected laboratory-maintained bacteria in recurrent aphthous ulceration (Lindemann, Riviere, and Sapp), 585
Ship, Irwin L., memorial to, 112 (Announcement)
Sialographic damage in rat submandibular gland (Yoshida et al.), 426
Sialolith, 111 (Roentgeno-oddities)
Silicone-induced foreign body reaction and lymphadenopathy after temporomandibular joint arthroplasty (Dolwick and Aufdemorte), 449
Skin lesions, ulcerative stomatitis, gingivitis, and (Scully), 261
Smoking cessation; effects of nicotine-containing chewing gum on oral soft and hard tissues (Christen et al.), 37
Socket packing and tranexamic acid, effects of; blood loss following dental extractions in anticoagulated rabbits (Vinckier and Vermylen), 2
Speech production before and after orthognathic surgery (Ruscello, Tekieli, and Van Sickels). 10
Steroid therapy, modified topical, for treatment of oral mucous membrane pemphigoid (Aufdemorte, De Villez, and Parel), 256
Stomatitis, recurrent aphthous, HLA-A, B, C, DR, MT, and MB antigens in (Gallina et al), 364
ulcerative, gingivitis, and skin lesions (Scully), 261
Sublingual gland herniation through mylohyoid muscle (Nathan and Luchansky), 21
Sublingual—Cont'd
dermoid cyst (Howell), 578
Submandibular gland, rat, sialographic damage in (Yoshida et al.), 426
Surgery, gastric bypass, megaloblastic anemia with oral lesions as consequence of (Drummond, White, and Damm), 149
inadequate treatment pathway to (Wallace, Wilson, and Groom), 528
orthognathic, patient, management of large lingual thyroid in (Gallo and Ellis), 344
speech production before and after (Ruscello, Tekieli, and Van Sickels), 10
outpatient, under local analgesia, midazolam and diazepam compared as sedatives for (Barclay, Hunter, and McMillan), 349
Surgical treatment of Forestier's disease, radiographic, clinical, and histopathologic evaluation (Barsamian et al.), 136

T

Teeth, anterior, straight-line endodontic access to (LaTurno and Zillich), 418
apicoectomized, with total loss of buccal bone plate, follow-up study of (Skoglund and Persson), 78
unerupted permanent, and related clinical cases, incidence of (Grover and Lorton), 420
Temporomandibular joint arthroplasty, silicone-induced foreign body reaction and lymphadenopathy after (Dolwick and Aufdemorte), 449
derangements; identification of anteriorly displaced meniscus in vitro by means of three-dimensional image reconstruction (Pettigrew et al.), 535
disease, value of nuclear medical scan in diagnosis of, 356 (Letter to editor)
diskectomy of: Double-contrast arthrotomographic follow-up study (Westesson and Eriksson), 435
internal derangement of: Morphologic description with correlation to joint function (Westesson, Bronstein, and Liedberg), 323
structural hard-tissue changes in (Westesson), 220
meniscus, magnetic resonance imaging of (Katzberg et al.), 332
radiography, absorbed doses from (Brooks and Lanzetta), 647
Thermomechanical properties of gutta-percha (Schilder, Goodman, and Aldrich), 285
Thorium depositions detected by x-ray microanalysis; radiation-induced lesion of oral cavity (Terzakis et al.), 399
Thyroid, lingual, management of large, in orthognathic surgery patient (Gallo and Ellis), 344
Tobacco and herpes simplex virus, combined effect of, on histopathologic changes in lip of mice (Park et al.), 154
Tomography, computed, in diagnosis of odontogenic keratocyst (MacKenzie et al.), 302
computerized; identification of anteriorly displaced meniscus in vitro by means of three-dimensional image reconstructions (Pettigrew et al.), 535
computerized, of combined carcinomas arising in pleomorphic adenoma (Farman, George, and Clear), 96
Tongue carcinoma, experimental, of rats induced by oral administration of 4-nitroquinoline 1-oxide (4NQO) in drinking water (Ohne et al.), 600
foreign body in, 549 (Roentgeno-oddities)
Tooth eruption and migration theories as possible explanation for presence of 13,000-year-old mesiodens in vault of palate (Sutton), 252
foreign body in, 431 (Roentgeno-oddities)
missing, 319 (Roentgeno-oddities)
Tranexamic acid and socket packing effects of; blood loss following dental extractions in anticoagulated rabbits (Vinckier and Vermylen), 2

Trauma, maxillofacial, patient, syndrome of inappropriate secretion of antidiuretic hormone in (Lieblich et al), 460
Traumatic bone cyst (Freedman and Beigleman), 616
Treatment, dental, relative value of screening tests of hemostasis prior to (Redding and Olive), 34
inadequate: Pathway to surgery (Wallace, Wilson, and Groom), 528
provided patients hospitalized with orofacial odontogenic infections, evaluation of (Young et al.), 28
Trigeminal neuralgia, paroxysmal, 463 (Letters to editor)
Tumors, benign salivary gland, of palate, technique for complete excision of: "pedicle flap" (Sacks et al.), 572
Twinning, gemination and, in permanent dentition (Grover and Lorton), 313

U

Ulceration, aphthaus, possible role of apoptotic cells of oral epithelium in pathogenesis of (Honma, Saito, and Fujioka), 379
recurrent, serum antibody responses to indigenous oral mucosal antigens and selected laboratory-maintained bacteria in (Lindemann, Riviere, and Sapp), 585
Ulcerative diseases, oral inflammatory, clinical efficacy of prednisone in treatment of patients with (Silverman, Lozada-Nur, and Migliorati), 360
stomatitis, gingivitis, and skin lesions (Scully), 261
Ultrasonography in oral surgery, introduction to (Wilson and Crocker), 236
Ultrasound, Doppler; valuable diagnostic aid in patient with facial hemangioma (Oates, Williams, and Ward-Booth), 458
University of Pennsylvania School of Dental Medicine establishes memorial to Irwin I. Ship, 112 (Announcement)

V

Vasoconstrictors used in local anesthetic solutions, drug interactions and (Yagiela, Duffin, and Hunt), 565
Viruses, possible role in pathogenesis of verrucous carcinoma (Eisenberg, Rosenberg, and Krutchkoff), 52
Vitamin E dietary supplements, effects of, on exposed dental pulp in rats (Niamonitos, Shklar, and Krakow), 627

X

X-ray developers; densitometric evaluation of Soludent and GBX developers (Patel), 107
films, dental, two, compared for rater preference using endodontic views (Kleier, Benner, and Averbach), 201
diagnostic accuracy of detection of proximal enamel lesions in nonscreen radiographic performance (Okano, Huang, and Nakamura), 543
swallowed by patient, 548 (Roentgeno-oddities)
machines, dental, new positioning device for extraoral radiography with conventional (Schiff and McDavid), 659
